

Exact Synergy

Portal Solutions

Exact Synergy is designed for organizations that need to be able to change rapidly and be flexible. By connecting information, people and processes in real-time, Exact Synergy gives you the control and insight you need to grow your business.

Exact Synergy is a Web-based business management solution that takes all of your business information, processes and documents, and lets you position them in one or many secure, online portals. Your corporate intelligence appears seamlessly across your business units and is more accessible to your employees, customers, suppliers and partners in a time-saving and cost-effective manner.

With Exact Synergy you optimize:

Communication. Everyone Involved Gets the Right Information, at the Right Time

The Synergy single interface provides the information and tools to help your employees, clients and partners do their jobs more efficiently. Synergy shifts the action from hunting for data to sharing information which can immediately be used. In turn, integrated workflow and document management

provide automated self-service, eliminating opportunities for error and saving you crucial time and money.

Collaboration. Everyone is Always in the Loop

Synergy allows your company to interact with every facet of your business: your clients, business partners, employees and vendors, connecting you to all relevant and mission-critical business transactions. Your financial, sales and product support information is available immediately, online, and is linked to associated projects or initiatives. It lets you do your work and share it with colleagues at any time, from anywhere in the world.

Control. Complete Transparency and Accountability, Built into the System

With all of your corporate information consolidated, Exact Synergy brings together the people, processes and knowledge that matter most to

With Exact Synergy you can:

- 1** Integrate company content and application interfaces into practical business processes
- 2** Allow user communities (customers, partners, vendors) to access and act on business transactions
- 3** Automate teamwork and collaboration
- 4** Provide business information in an intuitive format
- 5** Increase productivity by automating tasks
- 6** Standardize work environments with secure, 24/7 worldwide access
- 7** Construct unlimited portals based on how your company operates, with no Web-programming required

And it all comes together.

your business. Synergy lets you create an accurate, up-to-the-moment view of your organization's personnel, finance, workflow, documents and asset information, enhancing decision-making, analysis, scenario planning, and ongoing management across your entire business. You can access real-time, business-critical information from anywhere in the world.

Every asset, task, employee, customer and document can be associated with projects in Synergy. With an incorporated knowledge database, Synergy by default eliminates redundant work, reduces overhead costs and provides management with a clearer view of project-employee relations. Your business can only get smarter with Synergy.

Exact Synergy Portal Solutions Business Benefits:

- Create secure login portals for employees, partners and customers
- Leverage Microsoft Office® tools to build Website styles, frames and layouts
- Customize source portals for fast access to information by different departments, business units, vendors, functions or what you choose to define
- Access important benefit and HR related information from anywhere, anytime
- Maintain accurate employee records; find co-workers and coordinate work schedules
- Provide valuable feedback on corporate performance

Standardized Individual Portal Environments

With standard entry points, one technology model and anywhere, anytime access, Synergy replaces the multiple tools needed that accomplish document organization, project management, asset tracking and workflow.

Knowledge Sharing in Real Time

Records management and document intelligence is available and visible through the Internet to employees, customers, vendors and partners, who are fully informed of what is happening in your company. Synergy accommodates any audit and enhances your company's compliance requirements.

Role-based and Security Definitions

Customizable roles can designate what employees and external resources may access. By defining individual or group roles, different people, departments and companies have access only to information and functions that are important to how they work with your company.

Greater Self-Service and Management

By placing existing assets, documents and transactions in customized process portals, Synergy functions the way your organization operates and the way your people think; by giving users access to information and the ability to act on it, Synergy reduces the need for costly services or support, saving you both time and money.

Exact Synergy gives you flexibility to design a portal environment to collaborate and communicate with your customers, business partners or suppliers.

“Once I checked out the available solutions, I knew Exact Synergy was the way to go. Imagine: our customers, products, services and our employees made accessible through a single web portal... impressive.”
